### Vaccine Status

You already have a vaccine appointment.

Brand: AstraZeneca

Appointment date: 12 July 2021

Doctor's suggestion

If you can get a shot of vaccine provided by the government, **we strongly support you to get it as fast as possible** in order to protect yourself and help create herd immunity for Thailand.

6

You can get this **alternative vaccine** as a **booster shot (or 3rd shot)\*** around **6 months** after the 2nd shot of Sinovac, AstraZeneca or Sinopharm.

If your booster shot should be after January 2022, you should not reserve this lot of vaccine due to its expiration date.

### Vaccine Status

You do not have an appointment for vaccine yet.

#### Doctor's suggestion

If you cannot get a shot of vaccine provided by the government within October, **you can register for 2 shots of alternative vaccine.** It is expected to be available in October - December 2021.
